About This Game

"Let's make a deal, if you can prove that urban legend is a lie, I won't bother you anymore."
Rena is annoying student. She always show up wherever Ady is. Until one day, they make a deal. If Ady can prove that urban legend is a lie, she promise to leave Ady alone.

Luminescence is a short visual novel.

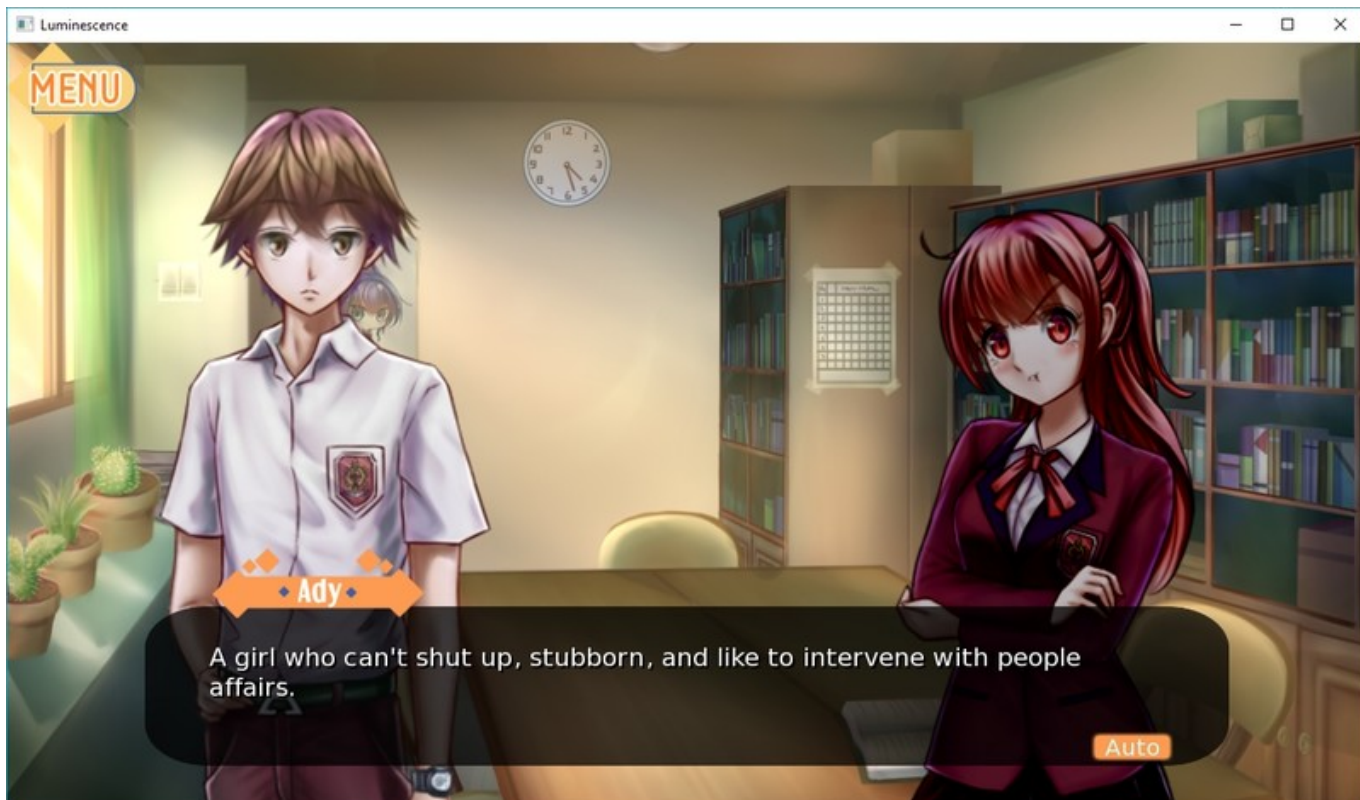

Title: Luminescence
Genre: Casual
Developer:
Genetic Studio
Publisher:
Genetic Studio
Release Date: 30 Mar, 2018

a09c17d780

English

No! No way! This is unacceptable! For a fully priced game (even though it\u2019s only 0.99) it should provide more than this. This game is not getting free pass from me.

Description about this game says: Luminescence is a short visual novel. Well, \u201cshort\u201d is right. IT IS 20 MINUTES LONG!!! And this is on regular auto-text speed with no skipping or anything. And yes, the rest of the game is done right. Character design, soundtrack, backgrounds\u2026 it\u2019s all fine. And even in that short period of time they managed to create some chemistry between two main characters. But the main issue remains, and there is no getting around it. I\u2019m sorry, but you are basically paying for a demo.

At one point, I was thinking I\u2019m playing prologue or chapter 0 maybe. But, so far, there are no clues to confirm that. There are many good free-to-play visual novels out there that provide much more content than this game. For f***ing sake, even Doki Doki Literature Club is free! And by all means, this one should be too! No recommendation.
